Bell responds to C.E.P. fact sheet

We think!

Someone or something is responding to the local 25 fact sheet we put on our website yesterday. They titled it:

C.E.P. 2007-08 Bargaining

Fact Sheet- Reasons to vote yes [March 5, 2008]

We assume it is from the company. If you choose to read it you might understand why they did not want to put their name on it. I guess like everyone else they have heard how the members are coming out in droves to tell us they want nothing to do with the piece of crap Bell calls a final global offer and are trying this shameless surreptitious tactic of an unsigned fact sheet that looks like it is from the C.E.P. It includes terms like: “substantially equivalent”{what the hell does that mean?} instead of exchanging proposals like honourable people do in bargaining in good faith and staying at the table. We appreciate the great turnout throughout Ontario & Quebec as we head for a resounding response that will notify Bell that we want & deserve a contract that compensates the people that keep Bell in business.

**In respect & solidarity,
your local 25 executive**
